

Omicron

Look out for new signs

A new coronavirus called **Omicron** is spreading fast. Look out for different signs

- * **Runny nose**
- * **Headache**
- * **Tiredness**
- * **Sneezing**
- * **Sore throat**

Most people get less ill with Omicron.

But it is spreading so fast it will be a problem this winter.

Get your booster for the best protection.

Don't spread it

Wash your hands a lot

Keep social distancing

Wear a mask if you can

Open windows for fresh air
